

Customization possibilities

At Label A-Peel, we provide our customers with top quality merchandise that they can be proud to use themselves, to sell, and to give as a gift. Label A-Peel and the Personal Collection Albums are 100% made in Japan and of the highest quality.

Our handcrafted Personal Collection Albums are easily customized. We also offer custom packaging. The many ways to customize our product is nearly endless. The only limits are the limits of our imaginations!

To assist in the creative process, we have created this document which highlights a few of the ways we have customized for other customers. It is simply a way to show you some of the possibilities. If you like one of the ideas, feel free to request it for yourself. We will happily collaborate with you to assist in the design process if you would like.

Thank you for your interest in Label A-Peel and the Personal Collection Album.

Customizing our standard album...

Simple and sophisticated to bold branding and personalized for the VIP.

Simple and easy...

Modify the window inset with your logo, message or favourite label or picture.

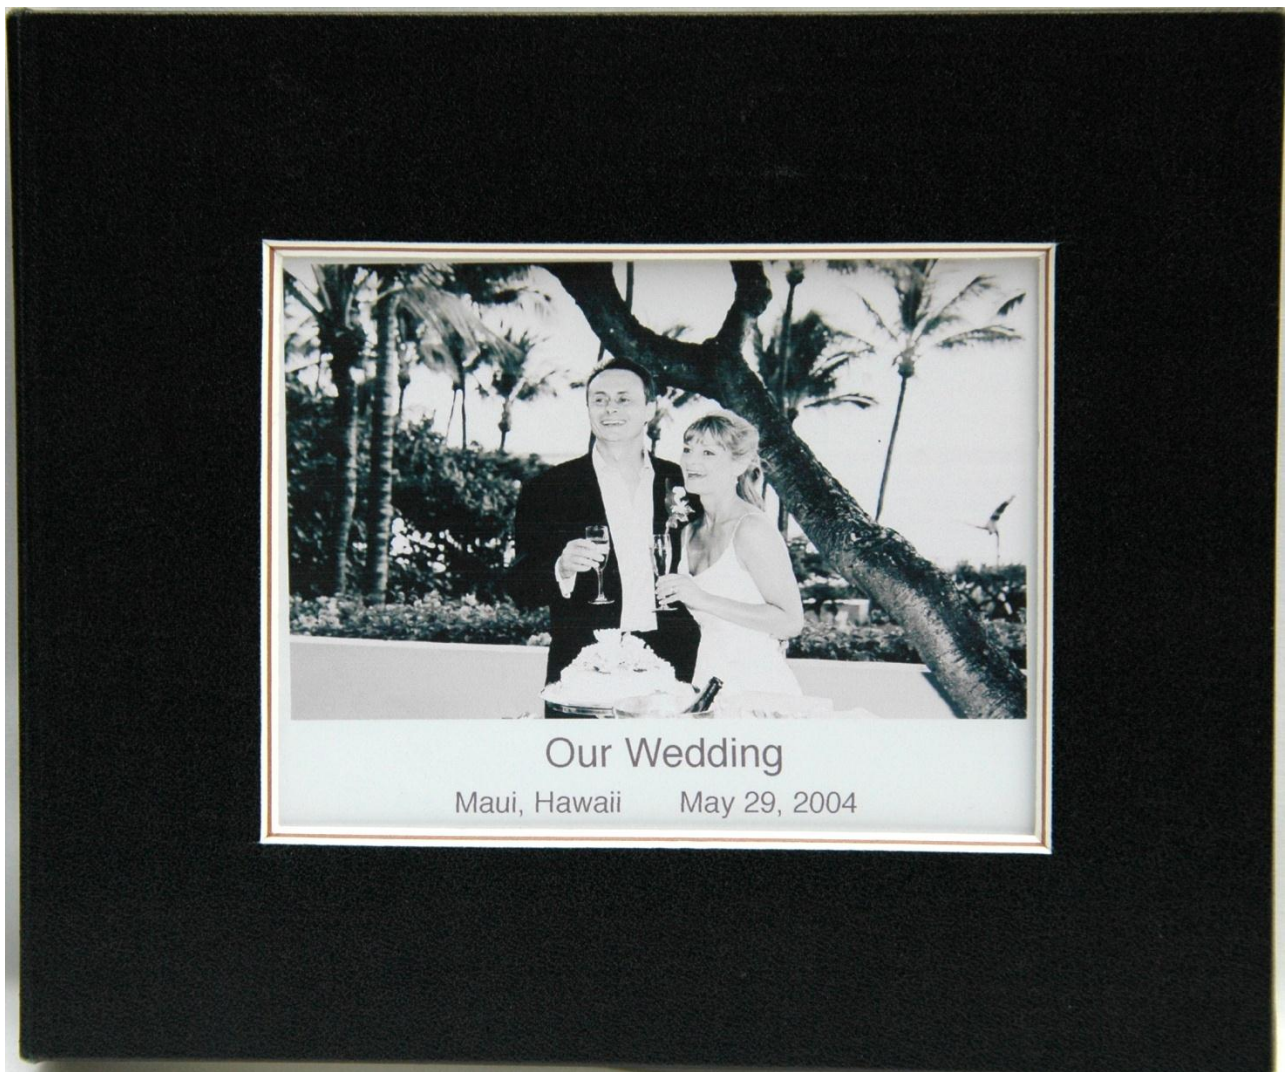

In the wedding or catering business?

Give the bride and groom a customized album with the labels from their wedding wines, champagnes or cocktails.

Have guests sign the back of the labels with personalized messages and intermingle photos from the wedding amongst the labels.

A personalized keepsake they will cherish forever.

Light and easy to pack into the honeymoon (and future anniversary's) suitcase to preserve newly made memories!

Subtle and Sophisticated...

Deboss your logo or message onto the material.

Hot stamping in various colors is also available.

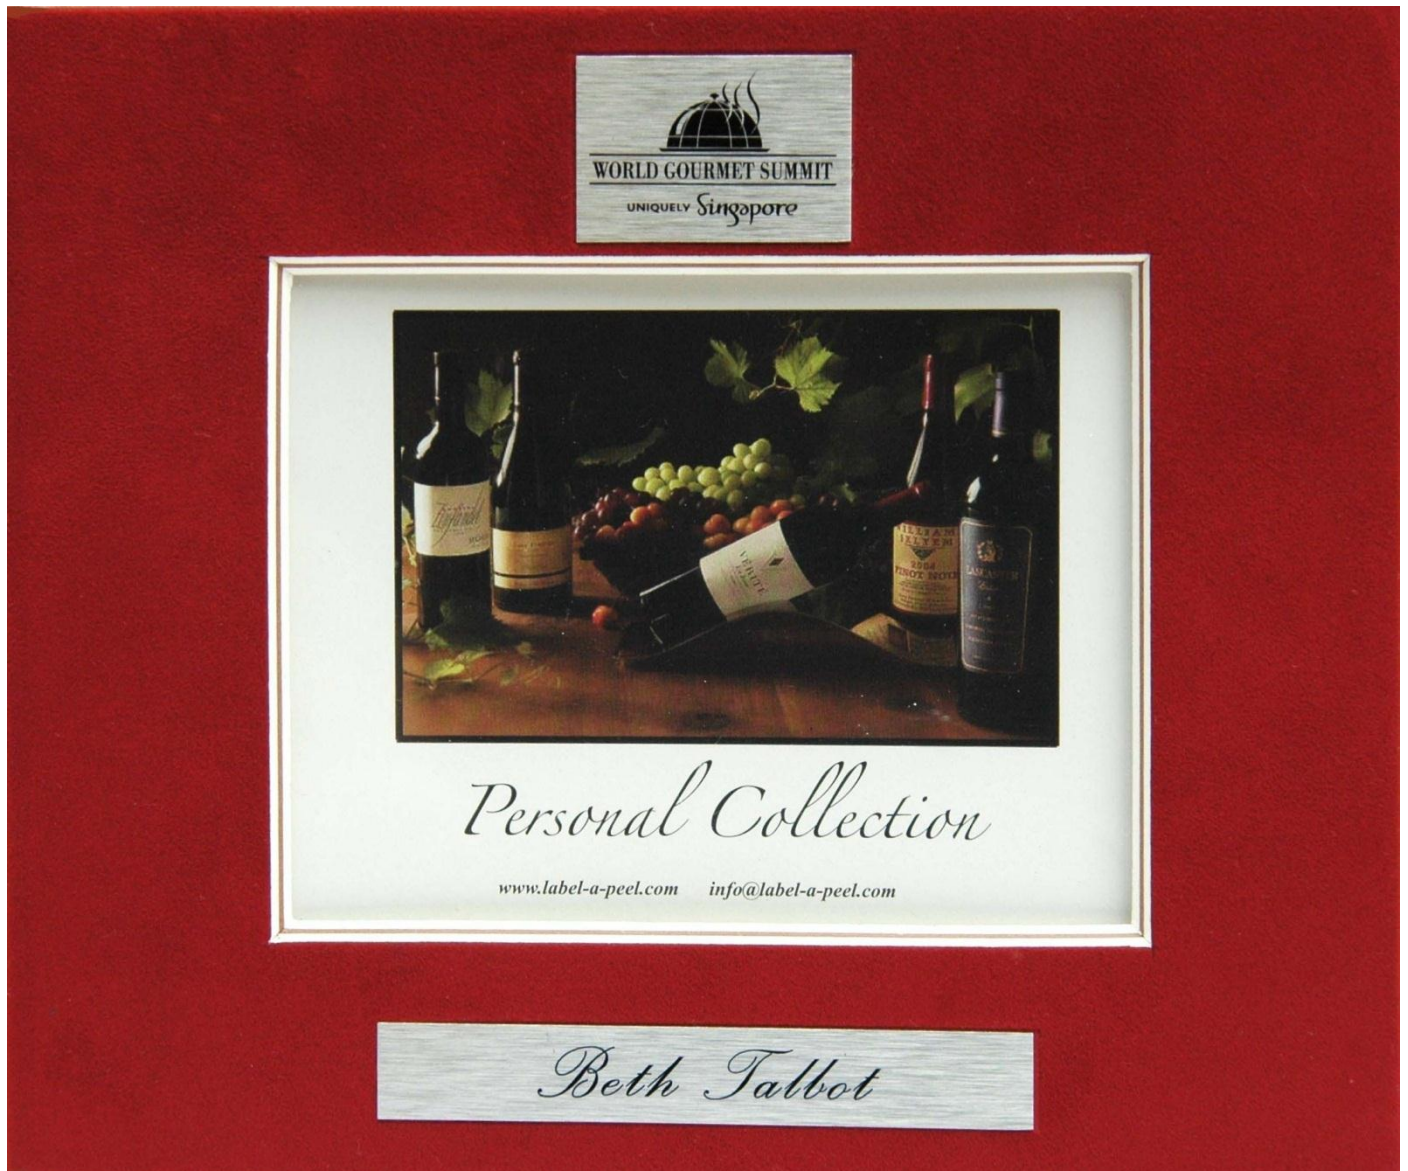

The bold and the beautiful...

Personalize even further with engraved metal plates.

- Please note, when adhering metal plates to our velvet material, the area where the plate is to be adhered, must first be debossed in the exact shape of the plate. This prevents the plate from coming off in the future. This is an easy task however requires a bit more lead time and planning.

This is not a requirement on our black matt albums. Plates will adhere directly onto the matt surface without risk of coming off.

A quality finished product and your satisfaction is our commitment to you!
